

Blue Cross Animal Hospital

DIETS

Good nutrition is very important for your new kitten. Starting them off right with a healthy diet will have life long benefits.

Our hospital recommends feeding any of the following diets to your new kitten:

- ❖ Royal Canin Development
- ❖ Hills Healthy Advantage Kitten
- ❖ Eukanuba / Iams Kitten Formula

Some of these diets are available in our clinic or they can be ordered through our Webstore. Please feel free to ask any of our staff or your Veterinarian about these diets.
